

HOUSTON LOUIS STOKES ALLIANCE FOR MINORITY PARTICIPATION (H-LSAMP)

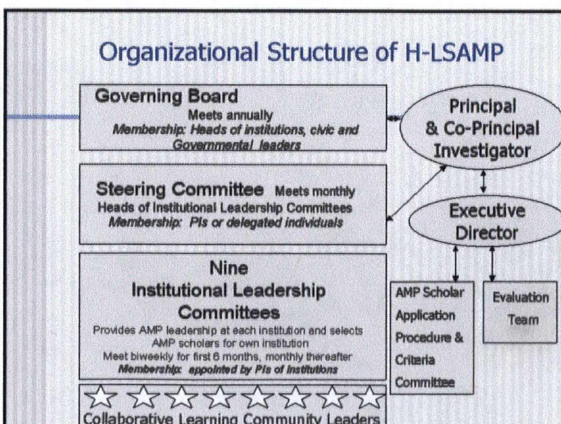

Houston Louis Stokes Alliance for
Minority Participation

This project is funded, in part, by the

**National
Science
Foundation**

- ### Program Participants
- University of Houston
 - Texas Southern University
 - Southwest Texas State University
 - Rice University
 - University of Houston - Downtown
 - University of Houston - Victoria
 - Houston Community College System
 - San Jacinto College District
 - Houston Independent School District

- ### H-LSAMP Goals
- To substantially increased (double) number of minority students who graduate with degrees in the sciences, mathematics, engineering, and technology (SMET) fields from Houston AMP institutions.
 - To support, encourage, and prepare underrepresented students to graduate with baccalaureate degrees in SMET fields from Houston AMP institutions.
 - To promote interest in graduate school.

H-LSAMP Key Elements

- Collaborative Learning Community (CLC)
- Faculty support
- Financial support
- Employment opportunities within students' areas of study
- Mentoring
 - Peer mentoring
 - Graduate student mentoring/tutoring
 - Faculty mentoring

What is expected of H-LSAMP Scholars?

- Students are required to attend all CLC workshop sessions and to participate actively.
- Students are expected to assist the CLC program and other LSAMP Scholars.
- Students must maintain full-time enrollment (12 or more semester hours).
- Students must graduate within five years.

H-LSAMP Students at Research Conference at SWTSU, July 2000

What are the eligibility requirements?

- First-Time In-College Students must:
 - Submit an application
 - Submit three letters of recommendation from science and math teachers
 - Write an essay describing their career goal(s), reasons for choosing that career, and what they have done so far to prepare themselves for their career

Eligibility Requirements, cont.

- Have at least three years of (state core) science courses
- Have taken mathematics courses through pre-calculus (elementary functions), calculus preferred
- Rank in top 25% of high school graduating class and/or have a state core GPA of B or better
- SAT math 450 and verbal 450 or better
- Math and science GPA of B or better

Currently enrolled college students must:

- Have declared a SMET major
- Have a cumulative GPA of 2.5 or better
- Have a major GPA of 2.5 or better, or math/science GPA of 2.5 or better
- Maintain a full-time enrollment status (12 or more semester hours)
- Submit three letters of recommendation from university or college math, science, engineering, or technology instructors

Underrepresented Minorities SMET Enrollment
Baseline Data - 1999
H-LSAMP Year 1 - 2000

- ### First-Year Goals
- Train CLC coordinators for H-LSAMP institutions
 - Train student teaching assistants to conduct academic workshops
 - Establish CLC facilities (for workshop & study purposes) at all H-LSAMP institutions
 - Establish CLC academic workshops at all H-LSAMP institutions

- ### First-Year Goals
- Recruit students at high schools with high percentages of minority students
 - Conduct summer bridge programs for incoming freshmen:
 - Study Skills workshops
 - Math workshops
 - Science workshops

- ### First-Year Goals
- Conduct a H-LSAMP Student Research Conference at Southwest Texas State University
 - Establish a H-LSAMP database
 - Establish a H-LSAMP website

- ### First-Year Accomplishments
- Trained CLC coordinators for H-LSAMP institutions
 - Trained student teaching assistants to conduct academic workshops
 - Established CLC facilities for workshop & study purposes at all H-LSAMP institutions
 - Established CLC academic workshops at all H-LSAMP institutions

First-Year Accomplishments

- Recruited students at high schools with high percentages of minority students
- Conducted summer bridge programs for incoming freshmen
- Conducted 1st Annual H-LSAMP Student Research Conference
- Established H-LSAMP database
- Established a H-LSAMP website
 - www.hlsamp.uh.edu

Plans for upcoming year

- Identify faculty to serve as mentors
- Establish research opportunities for students both in academia and industry
- Establish student internships in industry
- Establish student internships at local K-12 educational institutions

Institutional Responsibilities

- Each institution is expected to:
 - Meet ongoing commitments as outlined in the grant proposal
 - Develop resources for the purpose of institutionalizing the AMP program after the NSF funding ends

Sylvia Foster, UH's CLC Coordinator,
with H-LSAMP Graduate, May 2000
