Created by the Oklahoma Territorial Legislature in 1890, the University of Oklahoma is a doctoral degree-granting research university serving the educational, cultural, economic and health care needs of the state, region and nation. The Norman campus serves as home to all of the university's academic programs except health-related fields. Both the Norman and Health Sciences Center colleges offer programs at the Schusterman Center, the site of OU-Tulsa. The OU Health Sciences Center, which is located in Oklahoma City, is one of only four comprehensive academic health centers in the nation with seven professional colleges. OU enrolls more than 30,000 students, has more than 2,000 full-time faculty members, and has 20 colleges offering 153 majors at the baccalaureate level, 133 majors at the master's level, 75 majors at the doctoral level, 20 majors at the first professional level, and 18 graduate certificates. The university's annual operating budget is more than \$1 billion. The University of Oklahoma is an equal opportunity institution. (11/05).

OKLAHOMA STATE UNIVERSITY

BRIDGE TO THE DOCTORATE PROGRAM

Update – May 2008

Cornell Thomas
Principal Investigator
Vice President for Institutional Diversity

Oklahoma State University (OSU), founded in 1890, is a comprehensive land-grant institution that provides exceptional academic experiences, scholarly research and other creative activities that advance fundamental knowledge. With its main campus in Stillwater, OSU is Oklahoma's only university with a statewide presence. Total system-wide enrollment from all five campuses is approximately 32,500. The institution is a state leader in research, with a focus on sensors and sensor technology, information technology, Homeland Security issues, biotechnology and nanotechnology. More than 170 graduate programs and options are offered, including 110 at the master's level and 60 at the doctoral level. Recent graduate enrollment totaled 4,325, and approximately 1,000 master's and 200 doctoral degrees are awarded annually. The university awards more graduate degrees to Native Americans students than any institution in the nation. Sixty percent of OSU graduates choose to stay in Oklahoma and work hand-in-hand with other Oklahomans to advance the state and create even more opportunities for future generations. In Fall, 2007 graduate enrollment totaled 4,325.
