\*The Dept. of Education's Classification of Instructional Programs (CIP) was used to identify STEM disciplines. The CIP areas that were used include: 02 (Agricultural Sciences), 03 (Conservation/Natural Resources), 11 (Computer and Information Sciences), 14 (Engineering), 15 (Engineering Technology), 26 (Biological/Life Sciences), 27 (Mathematics), and 40 (Physical Sciences).

\*\*Source: UW System Office of Policy Analysis and Research, Central Data Request (CDR), Summarized by Clare Huhn, UW-Madison, Academic Planning and Analysis, 9/9/03.

\*\*\* Only 40% of the total Undergraduate population has a declared major at any given time; typically, these students are Juniors and Seniors. Data from Fall, 2002.

\*\*\*\*Data on *enrolled students* are available only for students who have declared majors in Biological Sciences or Mathematics in Fall 2003; data for other majors are unavailable. Data on *degrees conferred* are available for all STEM majors at Marquette.
